JULY/AUGUST 2014

Teaching Gospel Essentials in Latvia

In August I traveled to Latvia to teach and preach the gospel. Latvia, a small country of about two million people in the Baltic region of northern Europe, gained its independence from the former Soviet Union in 1991. Experiencing a difficult history, Latvia has been forcibly invaded and occupied three times since its founding in 1918, once by Nazi Germany and twice by the Soviets. Although the predominate religion in Latvia is Lutheran, that denomination has become very liberal in its theology. As a result, the church practices and teaches the traditions of the church

rather than the gospel. The Lord opened the door for me to teach and preach at a Bible conference in Jaunjelgava, Latvia, that was attended by many pastors and church lay leaders. Basing my teaching and preaching on the core tenants or essentials of the gospel, I used a quote from a famous Lutheran theologian, Rupertos Meldenius, to set a theme for the Bible conference. In the 1600's,

Meldenius said, "In essentials unity, in non-essentials liberty, in all things charity." I reminded the conference attendees of the essentials of the gospel and encouraged them to revive the teaching and preaching of these essentials in their churches. One night I preached an evangelistic message and gave an invitation for people to receive Jesus Christ as Savior and over half of the conference participants responded publicly and accepted Christ. Please pray for these Latvian church leaders as they return home to lead their local congregations. May the Lord use them as modern day reformers in their churches to reignite a passion for the proclamation of the true gospel of Jesus Christ.

Evangelizing through Technology

We live in an ever-increasing technologically advanced world. Computers, smart phones, and many other devices are changing the way people live and receive information. Uttermos Evangelism is

preparing gospel messages that can be accessed on these

media platforms. We are already hearing from people around the world who are listening to our sermons through these technologies. You can download or stream the sermons we are preparing on our website at www.uttermosetvangelism.org.

Steve, Tara, Lauren, and Chloe Paul along with Carla and I were able to hand out gospel tracts at the Fourth of July Celebration in Tupelo, MS.

**“To know the will of God, we need an open Bible and an open map.”
William Carey**

Students are Open to Christ

Even though educational institutions in the United States and around the world are becoming more closed and antagonistic to the gospel, there are still many schools around the world that will give our ministry an open door to preach the gospel. We have ministered in schools in Uganda, Brazil, and the Philippines. Most of the schools we minister in are dominated by an evolutionary, humanistic, and relativistic driven philosophy. Many students with whom we have shared have had little or no exposure to the true gospel of Jesus Christ. I have been amazed at how open most students are to hearing about and responding

to Jesus Christ. Students realize our world and their societies are in a serious mess. Most students have already tried many of the things this

world has to offer and realize that they are still empty and unfulfilled. Recently, as I preached outside at a school in the Philippines in the extreme heat, hundreds of students sat in complete silence soaking in the message of salvation

through Jesus Christ. During the invitation many of the students bowed their heads in humble prayer and prayed out loud asking Jesus to be their Savior. We were able to give the students some follow-up materials in their language and link them with the ministry of a local church in their area. We all know education is vitally important for children, but the most important knowledge is a personal knowledge of Jesus Christ. The apostle Paul said he counted all his former knowledge rubbish compared to the knowledge of knowing Jesus Christ as Savior. Thank you for helping us take the greatest message in the world to the next generation.
